Rules:

1. Each team can have **at most 3 members,** a single member team is also **allowed if not able to form a team.**
2. The members can only belong to the **First and Second year** of any undergraduate degree program in any college.
3. There is **no restriction on branches of the students.**
4. Students from **non-engineering backgrounds can also participate**.
5. **Cross college teams are not allowed**, i.e, members in a team cannot be from different colleges.
6. Only **One member** needs to fill up the google form.
7. You have to create a new repository and share the repository link while filling the registration form. (Repo name should be in the format `**Devheat_Beta_Team_Name**`).
8. Github repository
9. Teams cannot change their members after filling the registration form unless there is an extraordinary circumstance.
10. If you have to make any changes to your registration, send an email to gdsc@iiitsurat.ac.in
11. The rights to decide the winners remain with **GDSC IIIT Surat**. **The results once declared will be final and binding on all the participants.**
12. The **Devheat Beta Discord Server** **will be the primary point of interaction for the participants and organizers, during the hacking phase of the hackathon.**
13. Your team will be added to a **private channel** with your **mentor**, if you are not yet added to a private channel you can tag **Organizers** in #query on the discord server.

Problem Statement & Mentors:

Know your problem statement and mentor: [DevHeat Beta Teams](#)

You can either tag @Mentor in #query on the discord server, or directly ask queries to your assigned mentor in the private channel your team has been added in.

See Detailed [DevHeat Beta Problem Statements](#).

Mode Of Submission:

1. Each team has to create a well documented README file which should include features of the project, etc and push it in the github repository.
2. A video of not more than 2 minutes has to be recorded, and the link of the video should be attached in the README file.
3. You can keep the video in your google drive, or upload it on Youtube. The link of the video should be in the README file.
4. The deadline for uploading the README file is October 5, 10:00 AM. Any changes made to the README file after 10:00 AM will not be considered.
5. You can keep the video private, but have to give access view access to gdsc@iiitsurat.ac.in
